Canada Reports 300% Increase in 'Unspecified Causes' of Death, Sparking Calls for Investigation

A new Canadian government report reveals a 300% rise in "unspecified causes" of death from 2019-2022 as unknown causes climbed to the fifth leading cause of death in Canada. Some health experts said the stark increase should trigger an investigation into whether the deaths are linked to COVID-19 vaccines.

By Mike Capuzzo

Miss a day, miss a lot.** Subscribe to The Defender's Top News of the Day. **It's free.

As life expectancy plummets in Canada, a new government report claims "unspecified causes" have become the fifth leading cause of death in the country after cancer, heart disease, COVID-19 and accidents.

According to the Statistics Canada report, "unspecified causes" in 2022 passed strokes, aneurysms, chronic bronchitis, emphysema, asthma, diabetes, influenza and pneumonia, chronic liver disease and cirrhosis, Alzheimer's and suicide as causes of death.

Statistics Canada, also known as StatCan, released the report on Nov. 27 in The Daily, the agency's online news bulletin.

The report generated a slew of nearly identical headlines — provided by Canada's national news service — in Canada's leading newspapers along the lines of this one in the Toronto Sun: "Life expectancy for Canadians fell for third straight year in 2022, StatCan says," followed by the subhead: "More people died of COVID-19 in 2022 than in any other year since the pandemic began, report says."

Andre Picard, health columnist at The Globe and Mail in Toronto, Canada's newspaper of record, called the life expectancy drop — to 81.3 years in 2022 from 82.3 years in 2019 — "a big deal."

"It's only the second time this sharp a drop has happened in Canada in the past century," Picard said. "In fact, life expectancy has been climbing steadily for decades: 71 in 1960, 75 in 1980, 79 in 2000 and 82.3 in 2019."

"The Wuhan Cover-Up" by Robert F. Kennedy Jr.
ORDER NOW

COVID-19 deaths in Canada decreased to 14,466 in 2021 from 16,313 in 2020, the report shows. Canada is on track for about 7,000 COVID-19 deaths in 2023, Picard said.

COVID-19 deaths can't account for Canada's 7.3 % increase in total deaths in 2022 compared with 2021 — or for the country's 17% increase in total deaths over the historic norm of 2019, or the historic drop in life expectancy in Canada and worldwide, Picard said.

Like many mainstream journalists and public health officials in the U.S. examining the U.S. drop in life expectancy, Picard blamed chronic diseases, drug overdoses, opioid deaths, smoking, unhealthy diets and "indifference" for the decline in Canada. "There are virtually no mitigation measures like masking any more, and vaccination rates have fallen sharply," he wrote.

But Drs. Pierre Kory and Peter McCullough told The Defender they believe the most important and startling fact contained in the report is the 300% increase from 2019 to 2022 in "unspecified causes" of death in Canada.

McCullough, a highly published cardiologist who developed a widely used early treatment protocol for COVID-19, said the dramatic rise in deaths from "unspecified causes" in Canada represents a seismic and disturbing shift in Western medicine.

"Prior to the pandemic, death in Western countries was well understood," McCullough said, with 40% due to known cardiovascular, 40% due to terminal neoplastic disease (cancer) and 20% due to other known causes such as homicide, suicide, drug overdoses and accidents."

He added:

> "Since the roll-out of the COVID-19 vaccines, we have witnessed unprecedented deaths without antecedent disease. A large autopsy series published by Hulscher et al, found that 73.9% of the deaths after COVID-19 vaccination were due to problems caused by the shots."

McCullough cited the hundreds of studies examining post-vaccine, spike-protein-related injuries and deaths and the millions of deaths and injuries reported by citizens in the U.S. and Europe to their governments following mRNA vaccination.

"All deaths should be categorized according to the doses and dates of COVID-19 vaccination," McCullough said. "Unless proven otherwise, 'unspecified death' should be attributed to a fatal COVID-19 vaccine injury syndrome," McCullough said.

Kory, the former University of Wisconsin professor of medicine and president of the Front Line COVID-19 Critical Care Alliance, told The Defender the evidence is overwhelming that the COVID-19 mRNA shots caused more deaths and injuries across the Western world than any prior drug or vaccine in history.

"The answer as to why 'unspecified causes' are now a leading cause of death is plain and simple," Kory said. "That cause is the one medical intervention that the world's governments and media have championed since the start [of the pandemic]. … The mRNA platform technology is and has been a colossal failure in both efficacy and safety."

Kory and journalist Mary Beth Pfeiffer on Tuesday published an opinion piece in The Hill calling on governments and public health officials to study and address the problem of a global historic rise in mortality thus far not recognized by officials and not reported by mainstream journalists.

On Dec. 13, the essay was trending as the first or second most popular story on The Hill's website, which claims 32.5 million monthly unique visitors.

U.S. Food and Drug Administration (FDA) Commissioner Robert Califf on Nov. 30 published an extraordinary thread of posts on X (formerly Twitter) calling for a society-wide "all hands on deck" approach to solve the problem of the "catastrophic" decline in U.S. life expectancy.

RFK Jr. and Brian Hooker's *New* Book: "Vax-Unvax"
ORDER NOW

"JAMA Internal Medicine published earlier this month that our overall life expectancy has dropped to 76 years, and remarkably, that male life expectancy in the U.S. has dropped to 73 years," Califf wrote.

But Kory said the FDA commissioner's post, "which hit on smoking, diet, chronic illness and healthcare, ignored the obvious: People are dying in abnormally high numbers even now and long since COVID waned. Yet public health agencies and medical societies are silent."

The FDA and mainstream media are ignoring the fact that life insurers have been "sounding the alarm over these unexpected or, 'excess,' deaths, which claimed 158,000 more Americans in the first nine months of 2023 than in the same period in 2019," Kory wrote.

"That exceeds America's combined losses from every war since Vietnam. Congress should urgently work with insurance experts to investigate this troubling trend."

Amy Kelly, COO of DailyClout and the program director of the Pfizer Documents Analysis Project, said that for an autopsy to reach a proper diagnosis of an mRNA-vaccine-caused death, "histopathological examination of tissues from all over the body is necessary. Most of the time, even if an autopsy is performed, the histopathological examination of tissues is not."

She cited an interview with Dr. Arne Burkhardt, who describes the types of testing the coroners must perform but seldom do.

Dr. Robert Chandler, a Los Angeles orthopedic surgeon who taught at the University of Southern California medical school, identified "entire new disease categories" he calls "CoVax Diseases" in his study of Pfizer's 450,000 pages of COVID-19 vaccine documents, documents the FDA was forced to release via a court order, Kelly said.

"It makes sense that the unspecified causes of death have increased so much," Kelly said. "When a patient dies with either multiple diseases all at one time or with a previously unseen disease state, both of which happen with 'CoVax Diseases' Dr. Chandler has identified, I would imagine many doctors and/or coroners don't know how to categorize those causes of death. That would lead to 'cause unknown' categorization of deaths."

According to Naomi Wolf, author of "Facing the Beast: Courage, Faith and Resistance in a New Dark Age," "In the preindustrial world, people died mysteriously. But in the modern Western world, there are no mystery deaths. Every death has a death certificate which by law must identify a cause of death."

"A minor rise in unattributed deaths is a problem that needs investigation," Wolf said. "A major rise, such as you've identified, does not indicate a mass mystery to doctors and coroners, but rather it is evidence of a problem with state record-keeping — some bureaucratic malfeasance at a grand scale."

Why won't more people listen to this? It's so saddening that they just won't see what they've done to themselves and their families bc they couldn't adult. Common sense tells you to research before choosing so why did so many 'adults' not do their research? Blame the government all you want but ultimately it was THEM that did it blindly like a small child. No matter what anyone tells you it's YOUR job to research 🤦‍♀️

So many fell victim because of the fear porn exhibited by mainstream media. They were crippled by their fear and being sucked into it neglected to do their research. So everyone needs to remember to check your fear and do your research before you allow it to influence your decisions.

Not everyone Chrissy. My wife HAD TO take the jab or she would lose her job!! A govt. job. We knew it was a risk, even back in 2021. Today, she would not take it and retire if she had to. But in 2021, even we didn't have enough info. And I read A LOT. So please don't blame us. It was literally forced on us.

Well said, Key Lime Pie Guy. My wife was diagnosed with a T3 Tumor in her colon in December of 2019. Then, the "pandemic" broke. Her oncologist scared the shit out of us to get the vaxxination due to her compromised immune system from the other poison they were pumping her with (chemo). So, we did it. We didn't know then, what we do, now. The scare and uncertainty of the cancer was enough for us.

"Data from 'Health New Zealand' confirms that the COVID vaccines have killed over 10 million worldwide"
It's finally here: record-level data showing vaccine timing and death date. There is no confusion any longer: the vaccines are unsafe and have killed, on average, around '"1 person per 1,000 doses."
https://kirschsubstack.com/...

"FOIA'd Emails Reveal Highest-Level Leaders at '"White House'", HHS, "CDC", NIAID, AAP 'All Knew COVID Vaccines Linked to Myocarditis', Yet Publicly Covered Up Findings."

DailyClout received the third, 131-page release of documents from Attorney Edward Berkovich's Freedom of Information Act (FOIA) request to the Centers for Disease Control and Prevention (CDC). The FOIA request stated: "I request emails sent by and received by Dr. Rochelle P. Walensky, Sherri A. Berger, and Kevin Griffis (all of whom are CDC personnel) on dates beginning February 1, 2021 through May 31, 2021, containing the word myocarditis." Astonishingly, the emails reveal that the most senior of leaders, all the way up to the White House, knew about heart damage linked to mRNA vaccines yet colluded behind the scenes to conceal this side effect from the American people.

I'm not Canadian but was notified that my homeowners insurance rates are going up by 80% despite never filing a claim. I asked my agent why? She said that it's partly inflation driven but mostly because of the staggeringly high number of death benefits being paid out, so many that the usual actuarial models are all messed up. My spouse is an economist and he's not the least bit surprised by all this but since he's jabbed and boosted, he chalks it all up to people like me who, despite never getting Covid or being hospitalized, somehow caused all the people who bleated like sheep to drop dead…. The talking heads on tv should be reporting that it's all going according to plan.

This could be the extra reason as wel:
Canadian healthcare is not the best. Nowhere close. Despite being among the most expensive, most international ratings have us around 30th in the world, lagging behind just about every developed country.
Mass immigration over recent years has completely overwhelmed the system. A significant portion of newcomers are coming through the family reunification program who are often older (parents, and grandparents) and more dependent on the healthcare system. Sometimes they are coming here specifically to take advantage of our healthcare system despite their families not paying into it!

Canadian healthcare also has the dubious distinction of having the worst wait times of any developed country. This year around 17,000 people died while waiting for medical care at home or ER.

"Canada Reports 300% Increase in 'Unspecified Causes' of Death"

I forget the number, but after a round of boosters, there was an excess of deaths among "young healthy doctors" in Canada.

They know what is causing 'unspecified deaths.' They just won't admit the truth. In the U.S. there was a six sigma increase in excess deaths in the fall of 2021. The only logical explanation was the Covid shots.
Silence from the public health agencies. Why would they not care about a six sigma increase in all cause mortality, unrelated to the Covid virus? Conflict of interest. They were heavily invested in the Covid shots.

Some people are continuing to take them. I would have hoped that by now, everyone would have realized just how dangerous they are and stopped taking them.

Juli Black
3 days ago
Here is my guess, as we know and the science supports, everyone who got the jab is immune compromised. They will release a new virus that the vaxxed will be unable to fight due to lack of immunity, it is then that we will see mass death. Keep in mind, the vax is doing severe damage to everyone's bodies even it they do not know it and they predict with in a few years all will be impacted with cancer, heart attacks, blood clots, organ failure, still births and so forth hence the deaths will continue to escalate . It is really a brilliant death machine since everyone will die from the same cause but from a different ailment, this one cancer, that one liver failure, this one heart attack , that one flu due to no immunity ....

BREAKING "Sharing Is Caring"
"Robert Kennedy Jr. Unmasks the 'Principal Villains' Behind the COVID Cover-Up"!

According to the CDC, the COVID-19 pandemic has claimed the lives of over 1.15 million Americans. However, after nearly four years of death and economic carnage, there's been an underwhelming effort to get to the bottom of where it originated, so this may never happen again.
https://vigilantnews.com/po...

Though I appreciate RFK Jr. book, I am convinced there was (and still there is) no any kind of 'Covid virus'. I am not the only one having such opinion. If there had been there would be no need to scam the 'cases' with a PCR test not testing for the 'virus'. As it's Nobel Prize-winning inventor Kary Mullis said: The PCR test cannot tell if you are sick. PCR is not for diagnosis !
There would be no need to scam the cases and deaths by re-diagnosing flu, pneumonia and other respiratory diseases as 'Covid-19' which is why flu disappeared worldwide when the 'Covid' hoax was played.
There would be no need to scam 'Covid deaths' by having 'Covid-19' on the death certificates of anyone who died from ANY OTHER CAUSE within 28 days of testing positive with a test not testing for the 'virus'.
There would be no need to euthanise old people with the drugs Midazolam and morphine and call it 'the first wave of Covid' or kill people with the Fauci-imposed drug Remdesivir + ventilator which triggers multiple organ failure and respiratory distress.

There was something ,and what it was I definitely had all the symptoms. I am UnVaxxed, untested, un masked, and never got whatever it is until December 2021 ,down for 14 days during Christmas. Myself and many of my friends down as well, no taste ,no smell, fever, Dore throat, deep cough, low oxygen,all of it. Then the loss of hair for about 6 months, that wasn't fun. My friend that also had it said maybe it was radiation poisoning, the way we lost our hair. I do know that I didn't get sick until after the roll out of those booster shots, could it have been massive shedding, or something they sprayed in the air or water, who knows. Whatever it was , I'm not getting it again, I'm fully stocked on All the supplements and ivermectin,and hydroxy. And whatever I had was unlike anything else I've ever had, including the flu, it kept changing, every 2 days to a new symptom.

"This preprint has been removed by Preprints with The Lancet because the study's conclusions are not supported by the study methodology."

I notice the statement has no evidence presented to back up Lancet's claim. Thus i do not trust Lancet's claim. Steve Kirsch has seen this routine played on him multiple times. He presents evidence, and it is dismissed with a hand wave by the CDC or whoever he is presenting to. Hand waving is not scientific evidence. If anything, it is evidence of a cover-up.

Duhhhh. WHY is this a story? And they just realize this?? Stupid is as stupid does.

Early on in this scam when everyone was in a panic & MSM was 'reporting' this mass dying of convid, I pulled up the world's population (forgot where that site was, it was 3 years ago sorry) to compare deaths/births and any changes. When MSM was claiming millions died of convid (NOT the shot) the population at that particular month was little to no change in the population numbers (certainly nothing that stood out other than normal rate of normal deaths up to that point before convid). Whoops, holes in their theory became clearly obvious to me.

That's when I knew their reporting was BS that all those people were 'dying in hospitals' (we now know because of them) & you 'couldn't find a hospital bed', 'people were dropping down everywhere'....BS. Morticians have to report deaths.

Once jabbed it becomes a social contract which most people will defend to their dying day. Even if that day arrives sooner than later. The purveyors knew this. That's why they pushed so hard. Most of the jabbed are unconvincible particularly if they felt no ill effects. To them the damaged and dead don't exist. To them I say, I've never personally known anyone killed or wounded in a war but it's a certainty that millions were. Is a memorial to the shot damaged necessary?

What the mRNA technology caused the most mischief, and a majority will never be fully aware of this "lesion" or "sequel" is an accelerated senescence, the invisible undetectable Covax Cognitive Decline. The inability to remember, oh did I really get a clot, a myocarditis, a cancer or an autoimmune disease due to this jab? Go tell that to someone else, not me.

0 0 Reply • Share ›

drw22
4 days ago

I'm sure some of those deaths caused by cancer, heart disease, and COVID-19 were actually caused by the Covid shot, on top of all those unspecified deaths. With the milder Covid variants, someone has to have a weakened immune system to die from it. How does that happen?
